

SNAKE

Description:

The smallest and lightest modular extinguishing system for electric vehicles, container cooling, emergency decontamination, forest fires and much more.

Characteristics

Dimensions (L x B x H)	0,60 x 0,40 x 0,12 m
Weight	approx. 2 kg
Supply pipe	Storz C-coupling
Flow per nozzle	approx. 20 l/min.
Number of nozzles	4 pieces
Nozzle material	brass
Droplet size	300 µm – 500 µm
Narrowest nozzle cross-section	3,10 mm
Filter mesh size	1,60 mm
Material clamp	Stainless steel 1.4404 (V4A)

Snake fits into a 0,60 x 0,40 x 0,12 m Eurobox including optional aluminium frame.

1. Unpack
2. Attach to an extension ladder
3. Push it under the high-voltage battery

Snake is infinitely modularly expandable, so that vehicles of any length are efficiently cooled.

For this purpose, we supply an optional aluminium frame as an alternative to the ladder.

Efficient cooling from below and staying away from hazards as an emergency worker.

Areas of application

Extinguishing system for electric vehicles

Container cooling

Emergency decontamination
